Journal of Voice
Vol. 8, No. 4, pp. 375–378
© 1994 Raven Press, Ltd., New York

Journal of Voice
Volume 8, 1994

Subject Index

Accent method, voice therapy, acoustic analysis of functional dysphonia, 163
Acetaldehyde, alcohol intake, changes in pitch, vocal fold injection and, 340
Acoustic analysis
  articulatory, developmental, and gender effects, 145
  differential phonation characteristics, women, amyotrophic lateral sclerosis, 327
  duet singing, 202
  functional dysphonia, 163
  voice measurements and, 8
Actin, cellular response, acute injury, 65
Acting, voice science, voice pathology, medicine and, 359
Actors, vocal fatigue in, 207
Aerodynamic analysis
  before and after microlaryngeal surgery, 186
  voice measurements and, 8
Airway
  resistance, speech production and, 123
  upper, compromise, laryngotracheal paratubal air envelope, 168
Alcohol, intake, changes in pitch after, vocal fold injection and, 340
Amyotrophic lateral sclerosis, differential phonatory characteristics, women, 327
Anchoring fibers, morphologic ultrastructure, vocal fold basement membrane zone, 48
Aphonia
  arytenoid adduction, type I thyroplasty and, 84
  laryngotracheal paratubal air envelope, reconstructive surgery, 168
Artificial neural networks, spectral pattern recognition, improved voice quality, 320
Arytenoid adduction, type I thyroplasty and, treatment of aphonia, 84
Auditory feedback, Lombard effect, choral singing, 24
Auditory function, voice measurements and, 8

Botulinum toxin, recalcitrant mutational dysphonia and, 347

Cell death, response to two clostridial toxins, 65
Children's voices
  adult comparison, maximum flow declination rate, 240
  range profiles, differences, 230
Choral singing
  dynamic range of individual singers, 196
  Lombard effect, 24
  sound levels in, separation of one voice, 293
Chorus effect, sound level separation, choral singing, 293
Clostridial toxins, cell response to, plasma membrane role in, 65
Coloratura, perceptual aspects of singing, 106
Cricothyroid muscle, modulation of fundamental frequency, during vibrato, 224
Cyclosporin, laryngeal transplantation, 92

Degeneration, skeletal muscle, after injury, 53
Denervation, recurrent laryngeal nerve, paralysis, 79
Developmental patterns, speech production, 123
Dynamic range, individual choral singers, 196
Dysarthria, differential phonation characteristics, women with amyotrophic lateral sclerosis, 327
Dysphonia
  functional, acoustic analysis of, 163
  high-frequency energy components, 157
  laryngotracheal paratubal air envelope, reconstructive surgery, 168
  recalcitrant mutational, botulinum toxin in treatment of, 347
  spectral pattern recognition, improved quality, 320
  vocal fold basement membrane zone, anchoring fibers in, 48
  vocal hygiene education and, 279
Dysphonia plicae ventricularis, laryngotracheal paratubal air envelope, reconstructive surgery, 168

Education, vocal hygiene, improvement of voice and, 279
Electromyography
  modulation of fundamental frequency, laryngeal muscles, during vibrato, 224
  voice measurements and, 8
Endoscopic surgery, laryngotracheal paratubal air envelope in, 168
Ensemble
  analysis of duet singing, 202
  sound level separation, choral singing, 293

Face masks, disinfection of, 95
Feedback, sound level separation, choral singing, 293
Flow glottography, singing synthesis and, 18
Flow rate, voice production, vocal function exercises and, 271
Foreperiod, effects on acoustic LRT, normal speakers, 248
Formant
  average loudness level, mean fundamental frequency and, singers, 263

frequencies, singing, 106
resonance source of, laryngeal system, 303
tracking, singing voice production, 25 years of progress, 18
Frequency range, voice production, vocal function exercises and, 271
Fundamental frequency
articulatory, developmental, and gender effects, 145
modulation, laryngeal muscles, during vibrato, 224
perceptual aspects of singing, 106
subglottal pressure and, singers *versus* nonsingers, 263

Gender
amyotrophic lateral sclerosis, differential phonatory characteristics, 327
effects on fundamental frequency and jitter, 145
maximum flow declination rate, 240
Glottal chinks, voice range profiles, children, 230
Glottographic analysis, voice measurements and, 8
Gould, Wilbur James, in memory of, 97
Granuloma, laryngeal, professional singer, 352

Harmonics-to-noise ratio, estimation of, improvements, 255
Hearing-of-self, choir singing, 293
High-frequency energy, normal and dysphonic voices, 157
Hoarseness
harmonics-to-noise ratio, improvements in estimation, 255
voice range profiles, children, 230
Hydration, treatments, laryngeal nodules and polyps, voice measurement and, 30
Hyperadduction, vocal fold measurements, 132

Immunosuppression, laryngeal transplantation, 92
Injury
intraglottal pressure and impact stress, vocal fold measurements, 132
mechanical stress, phonation, 99
skeletal muscle, regeneration after, 53
toxic, vocal tract response to, 63
unilateral recurrent laryngeal nerve paralysis, 79
Integration, voice science, pathology, medicine, public speaking, acting, and singing, 359
Interdisciplinary collaboration, voice science, pathology and medicine, 359
Intraoral pressure, average loudness level, mean fundamental frequency and, singers, 263

Jitter, articulatory, developmental, and gender effects, 145

Laryngeal airflow, speech production and, 123
Laryngeal function analysis, voice measurements and, 8
Laryngeal granuloma, nonspecific, professional singer, 352
Laryngeal muscles
artificial stimulation, normal vibrato and, 215
modulation of fundamental frequency by, during vibrato, 224
Laryngeal pacemaker, vocal fold paralysis, 179
Laryngeal position, during singing, singing voice production, 18
Laryngeal reaction time (LRT), acoustic, foreperiod effects, 248
Laryngeal ventricle, resonance source of singer's formant, 303
Laryngology, integration, science, pathology, medicine, public speaking, acting, and singing, 359
Laryngotracheal stenosis, laryngotracheal paratubal air envelope, reconstructive surgery, 168
Laryngovideostroboscopy, before and after microlaryngeal surgery, 186
Larynx
functional recovery, after surgical repair of injured nerves, 70
nodules and polyps, hydration treatment effects, 30
nonspecific granuloma, professional singer, 352
resonance source of singer's formant, 303
transplantation, new parameters, 92
Linear predictive coding, vocal tract area display, voice development, 314
Lombard effect, choral singing, 24
Long-term average spectra, analysis of duet singing, 202
Loudness, perceptual aspects of singing, 106

Masking, sound level separation, choral singing, 293
Maximum flow declination rate, comparison, children *versus* adults, 240
Microlaryngeal surgery, aerodynamic and stroboscopic findings, 186
Muscle, skeletal, regeneration, after injury, 53

Neurolaryngology, vocal tract response, toxic injury, 63
Nodules
intraglottal pressure and impact stress, vocal fold measurements, 132
laryngeal, hydration treatment effects, 30
vocal, voice range profiles in children, 230
Noise, normal and dysphonic voices, 157

Obituaries
In memory of Wilbur James Gould, MD, 97
Patricia Gramming, PhD, 195
Overtone singing synthesis, perceptual aspects of singing, 106

Pacing, laryngeal, vocal fold paralysis, 179
Paralysis
arytenoid adduction, type I thyroplasty and, 84
recurrent laryngeal nerve, 79
vocal fold, laryngeal pacing and, 179
Perceptual features, vocal fatigue, actors and singers, 207
Phonation
alcohol intake and, vocal fold injection, 340
differential characteristics, women with amyotrophic lateral sclerosis, 327
mechanical stress in, 99
Phonation volume, improvement, vocal function exercises and, 271
Pitch
changes after alcohol intake, vocal fold injection and, 340
perceptual aspects of singing, 106

Pitch range, voice range profiles, children, 230
Plasma membrane, role in cell response, two clostridial toxins, 65
Polyps, laryngeal, hydration treatment effects, 30
Power spectrum average, normal and dysphonic voices, 157
Public speaking, voice science, voice pathology, medicine and, 359
Pulse register, resonance source of singer's formant, laryngeal system, 303

Recording, acoustic voice analysis, standards in, 1
Recurrent laryngeal nerve
  surgical repair, functional recovery of the larynx and, 70
  unilateral, paralysis, 79
Regeneration
  partial, unilateral recurrent laryngeal nerve paralysis, 79
  skeletal muscle, after injury, 53
Register, singing voice production, 25 years of progress, 18
Research scientists, singing voice production, 25 years of progress, 18
Respiratory analysis, voice measurements and, 8
Room acoustics, sound level separation, choral singing, 293

Sidetone, sound level separation, choir singing, 293
Singers
  laryngeal granuloma in, 352
  vocal fatigue in, 207
Singing
  choral
    dynamic range of individuals, 196
    Lombard effect in, 24
    sound level separation in, 293
  duet, acoustic and physiologic factors in, 202
  perceptual aspects of, 106
  voice production, 25 years of progress, 18
  voice science, voice pathology, medicine and, 359
Sound pressure level, individual choral singers, 196
Spectral pattern recognition, improved voice quality, 320
Speech production, laryngeal and respiratory production for, patterns, 123
Standards, acoustic analysis of voice, 1
Strain, mechanical, phonation, 99
Stress, mechanical
  phonation, 99
  vocal fold measurement, 132
Stroboscopy
  before and after microlaryngeal surgery, 186
  laryngotracheal paratubal air envelope in, reconstructive surgery, 168
Strobovideolaryngoscopy, laryngotracheal paratubal air envelope in, reconstructive surgery, 168
Subglottal pressure
  average loudness level, mean fundamental frequency and, singers, 263
  developmental patterns, speech production, 123
  singing voice production, 25 years of progress, 18
Subjective expectancy, foreperiod effects, acoustic LRT, 248
Supraglottal studies, voice measurements and, 8
Surgery
  endoscopic, laryngotracheal paratubal air envelope in, 168
  laryngeal, nonspecific granuloma in a professional singer, 352
  microlaryngeal, aerodynamic and stroboscopic findings, 186
  reinnervation, unilateral recurrent laryngeal nerve paralysis, 79
  repair of injured nerves, functional recovery of larynx after, 70
Synkinesis, unilateral recurrent laryngeal nerve paralysis, 79

Tetanus, cellular response, acute injury, 65
Thyroarytenoid muscle, modulation of fundamental frequency, during vibrato, 224
Thyroplasty, type I, arytenoid adduction and, aphonia, 84
Toxicity, vocal tract response to, 63
Transplantation, laryngeal, 92
Tremor, normal vibrato, artificial stimulation of laryngeal muscles and, 215

Ultrasonography, voice measurements and, 8
Ultrastructure, anchoring fibers, vocal fold basement membrane zone, 48

Ventricular folds, laryngeal, resonance source of singer's formant, 303
Vibration, mechanical stress, phonation, 99
Vibrato
  analysis of duet singing, 202
  modulation of fundamental frequency, laryngeal muscles, 224
  normal, artificial stimulation of laryngeal muscles and, 215
  singing voice production, 25 years of progress, 18
Videolaryngoscopy, laryngotracheal paratubal air envelope in, reconstructive surgery, 168
Viscosity, laryngeal nodules and polyps, hydration treatment effects, 30
Visual analysis, voice measurements and, 8
Visual displays, LPC-based vocal tract area display, for voice development, 314
Vocal abuse, vocal hygiene education, improvement of voice and, 279
Vocal disorders, mechanical stress, phonation, 99
Vocal fatigue, perceptual features, actors and singers, 207
Vocal folds
  aphonia, arytenoid adduction and type I thyroplasty, 84
  basement membrane zone, anchoring fibers in, 48
  injection, changes in pitch after alcohol intake, 340
  measurement, intraglottal pressure and impact stress, 132
  mechanical stress, phonation, 99
  modes of vibration, singing voice production, 18
  nodules and polyps, hydration treatment effects, 30
  paralysis, laryngeal pacing, 179
Vocal function exercises, efficacy of, improvement of voice production, 271
Vocal hygiene, education, improvement of voice and, 279
Vocal intensity, choral singing, Lombard effect, 24
Vocal motor control, foreperiod effects, acoustic LRT, 248
Vocal tract
  LPC-based area display, for voice development, 314
  resonance source of singer's formant, laryngeal system, 303

response to toxic injury, 63
Voice analysis
acoustic, standards, 1
harmonics-to-noise ratio, improvements in estimation, 255
Voice classification, singing voice production, 25 years of progress, 18
Voice development, LPC-based vocal tract area display for, 314
Voice disorders
functional, acoustic analysis of, 163
vocal fold measurements, 132
Voice Foundation
panel, 359
singing voice production, 25 years of progress, 18
Voice laboratory
representatives of, 96
voice analysis, advances in, 8
Voice measurements
laboratory advances in, 8
laryngeal nodules and polyps, hydration treatment effects, 30
Voice quality, spectral pattern recognition, 320
Voice range
average loudness level, mean fundamental frequency and, singers, 263
profiles, children, 230
Voice research, history, singing voice production, 18
Voice science, public speaking, acting, singing and, 359
Voice therapy, functional dysphonia before and after, acoustic analysis, 163
Voice timbre, perceptual aspects of singing, 106
Vowel timbre
normal and dysphonic voices, 157
perceptual aspects of singing, 106

Statement of Ownership, Management and Circulation
(Required by 39 U.S.C. 3685)

1A. Title of Publication	1B. PUBLICATION NO	2. Date of Filing
Journal Of Voice	0 0 3 3 6 2	October 1, 1994
3. Frequency of Issue	3A. No. of Issues Published Annually	3B. Annual Subscription Price
Quarterly	4	$146 US / $166 Foreign

4. Complete Mailing Address of Known Office of Publication (Street, City, County, State and ZIP+4 Code) (Not printers)

1185 Avenue of the Americas, New York, New York 10036

5. Complete Mailing Address of the Headquarters of General Business Offices of the Publisher (Not printer)

1185 Avenue of the Americas, New York, New York 10036

6. Full Names and Complete Mailing Address of Publisher, Editor, and Managing Editor (This item MUST NOT be blank)

Publisher (Name and Complete Mailing Address)

Raven Press, 1185 Avenue of the Americas, New York, New York 10036

Editor (Name and Complete Mailing Address)

Robert Thayer Sataloff, M.D., DMA, 1721 Pine Street, Philadelphia, Pennsylvania 19103

Managing Editor (Name and Complete Mailing Address)

Antoinette Cimino, Raven Press, 1185 Avenue of the Americas, New York, New York 10036

7. Owner (If owned by a corporation, its name and address must be stated and also immediately thereunder the names and addresses of stockholders owning or holding 1 percent or more of total amount of stock. If not owned by a corporation, the names and addresses of the individual owners must be given. If owned by a partnership or other unincorporated firm, its name and address, as well as that of each individual must be given. If the publication is published by a nonprofit organization, its name and address must be stated.) (Item must be completed.)

Full Name	Complete Mailing Address
Raven Press LTD	1185 Avenue of the Americas, N.Y., N.Y. 10036
Wolters Kluwer US	"SAME"
Wolters Kluwer nv (owns 100% of stock)	Stadhouderskade 1 1054 ES Amsterdam, The Netherlands

8. Known Bondholders, Mortgagees, and Other Security Holders Owning or Holding 1 Percent or More of Total Amount of Bonds, Mortgages or Other Securities (If there are none, so state)

Full Name	Complete Mailing Address
NONE	

9. For Completion by Nonprofit Organizations Authorized To Mail at Special Rates (DMM Section 424.12 only)
The purpose, function, and nonprofit status of this organization and the exempt status for Federal income tax purposes (Check one)

(1) ☐ Has Not Changed During Preceding 12 Months ☐ Has Changed During Preceding 12 Months (2)

(If changed, publisher must submit explanation of change with this statement.)

10. Extent and Nature of Circulation (See instructions on reverse side)	Average No. Copies Each Issue During Preceding 12 Months	Actual No. Copies of Single Issue Published Nearest to Filing Date
A. Total No. Copies (Net Press Run)	1618	1623
B. Paid and/or Requested Circulation 1. Sales through dealers and carriers, street vendors and counter sales		
2. Mail Subscription (Paid and/or requested)	1064	1103
C. Total Paid and/or Requested Circulation (Sum of 10B1 and 10B2)	1064	1103
D. Free Distribution by Mail, Carrier or Other Means Samples, Complimentary, and Other Free Copies	125	125
E. Total Distribution (Sum of C and D)	1189	1128
F. Copies Not Distributed 1. Office use, left over, unaccounted, spoiled after printing	429	495
2. Return from News Agents		
G. TOTAL (Sum of E, F1 and 2—should equal net press run shown in A)	1618	1623

11. I certify that the statements made by me above are correct and complete

Signature and Title of Editor, Publisher, Business Manager, or Owner
Order Entry Supervisor (212) 930-9605
